Japanese Style Hibachi Grill & Sushi Bar with American Flair

To Whom It May Concern:

Bleeker & Vigesaa, LLC was the General Contractor for the construction of my American Samurai Grill & Sushi Bar Restaurant.

Frankly, the project would not have made it to completion without Bleeker & Vigesaa leading the way. They worked with the architect to complete the plans into a buildable set, they worked with the building department to get us through code issues, and they worked with the developer core/shell contractor to ensure that all of the developer work in our tenant space was completed per the plan or a credit provided for us to complete the work.

Bleeker & Vigesaa also did a first class job of getting the project done in our quick 60 day schedule.

We are very happy with how our restaurant turned out, the construction process was exceptional, and we without hesitation recommend Bleeker & Vigesaa, LLC as an excellent contractor. Please feel free to contact me at (720) 323-0658 for a reference.

Sincerely,

American Samurai Grill & Sushi Bar

Joe Egloff
