

Bleeker Vigesaa General Contractors

Building Your Success!

Project: Brighton City Hall East Entrance Canopy

Owner: City of Brighton

Architect: Hoehn Architects, P.C.

Specifications

- Removal of existing stairs and replacement with new stairs
- Addition of a canopy with monumental white columns and signage
- Matched the architecture to that of the existing 100 year old City Hall
- The construction is “reversible” so it can be removed without damaging the historic structure

4700 East Bromley Lane, Brighton, CO 80601

To Whom It May Concern:

With BleekerVigesaa, as the General Contractor, it was a pleasure to serve as the owner's representative for Brighton City Hall. Bleeker Vigesaa, provided professional service and attitude even though this was a small but complicated project. Their communication skills were excellent, and I was always kept up to date on all progress and needed changes to accommodate the Owners needs.

Bleeker Vigesaa assisted us with modifications we encountered with the historic structure and within our budget while still providing a design that was functional and esthetic.

The quality of the work was excellent and they finished the project on time considering the weather and change orders. This project has enhanced the City Hall Entry as you enter the building from the east parking lot. They were instrumental in working with us while still maintaining the historical nature of the building and the neighborhood. Please feel free to call me to discuss a reference for BleekerVigesaa.

Should you have any questions or comments, please call me at 720-283-3822.

Sincerely,

Jerry Lau, CCC, CCI, RCI, CRA
