

Bleeker Vigesaa General Contractors

Building Your Success!

Project: Highlands Masonic Temple
ADA Ramp and break area

Location: Potter-Highlands Historic District,
Denver, CO

Owner: Highlands Masonic Temple
Association

Architect: Bothwell Davis George Architects
Incorporated

“Bleeker and Vigesaa did an excellent job of working with us in a cooperative manner to make the required updates to the building, while maintaining the historic integrity of this building which is located in the Potter-Highlands Historic District.”

Jerry Lau, Owner’s Representative, Highlands Masonic Temple Association.

Specifications

- Added a ADA compliant ramp to existing (circa 1927) historic building.
- Maintained and enhanced the historical Classical Revival architecture of the building.
- Innovative use of architectural concrete and wrought iron fixtures.
- Final product was a pleasant eating, smoking and gathering area for the temple members and users.

To Whom It May Concern:

With BleekerVigesaa, as the general contractor, it was a pleasure to serve as the owner's representative for Highlands Temple Association. BleekerVigesaa, provided professional service and attitude even though this was a small project. Their communication skills were excellent, and I was always kept up to date on all progress.

Bleeker Vigesaa assisted us to work within our budget while still providing a design that was functional and esthetic.

The quality of the work was excellent and they finished the project on time. This project has enhanced the Highlands Masonic Center, while still maintaining the historical nature of the building and the neighborhood. Please feel free to call me to discuss a reference for BleekerVigesaa.

Should you have any questions or comments, please call me at 720-283-3822.

Sincerely,

Bro. Jerry Lau, HPM
Temple Board President
